

A.B. Daley School

December 11, 2020

These first few months of school have been rewarding, challenging and definitely different from previous years. We would like to express our gratitude to all of our staff, students and parents for your focus on learning, your positive attitudes, and for the great sense of pride and community felt at A.B. Daley. **Please see the message below from Livingstone Range School Division regarding programming changes for the remainder of the school year.**

Continuity of learning during the COVID-19 pandemic is a top priority for A.B. Daley School and Livingstone Range School Division. As we strive to provide high-quality education for both in-person and at-home settings, it is necessary for us to seek your intentions earlier than first anticipated so that sufficient staffing and any class configuration adjustments can be made to accommodate fluctuations of student programming choices for the second half of the school year.

*As such, if you wish to change your chosen method of programming (either in-person or at-home) for the second half of the school year, you must let us know by **December 18, 2020**. These changes would then be in effect from February 1, 2021 to June 25, 2021.*

For example, if your child is currently enrolled in at-home learning and you do not indicate that you wish to change your programming choice, they will continue at-home learning February 1 to June 25, 2021. If your child is attending in-person school and you do not indicate a desire to change your programming choice, they will continue in-person learning through the end of the school year.

No action is required if you choose to continue with your child's current programming enrollment and our planning will default to their current program enrollment. If you would like to move from in-person or at-home programming to the other, please contact Mrs. Becker at beckerj@lrsd.ab.ca or 403-646-3161 by **December 18, 2020.**

Sincerely,

Mrs. Jolene Becker
Principal
A.B. Daley School

Definitions

At-Home — Those students who are part of the virtual school. These students selected at-home programming prior to Oct. 16 and are currently enrolled in the LRSD Virtual School. These are not Grades 7-12 students who were attending in-person until November 30 when the province announced that all high school student classes would be virtual from November 30 to January 8.

In-Person — Those students who are currently attending school in-person for their programming. This also includes Grades 7-12 students who were attending school in-person until the provincial announcement moving them to virtual classes from November 30 to January 8.
